

# Clarendon Hills Park District

## Lions Park Pool

### Lifejacket Use Rules

- A lifejacket will not keep a patron from drowning and does not substitute for appropriate swimming skills and/or adult supervision
- Adult patrons and parents/guardians of minor patrons are solely responsible for determining that the lifejacket is the proper size and fit, and that they are properly adjusted and worn.
- All children using a lifejacket must be supervised by an adult in the pool within arms reach at all times. A lifejacket is not a babysitter.
- Lifeguards and other aquatic staff are not responsible for assessing patron swimming skills or ensuring that patrons properly wear lifejackets.
- The Clarendon Hills Park District will make a reasonable attempt to provide lifejackets upon request for children 3 years of age and older and at least 40 pounds through adult sizes.
- Lifejackets straps must be secured and the lifejacket must fit snugly. To check for a good fit, gently attempt to pick up the wearer by the shoulders of the lifejacket. If the PFD fits right, the wearer's chin and ears will not slip through. Whenever a lifejacket is removed during your visit it should be refit before it is used again, even by the same person.
- Individuals wearing lifejackets are not permitted on the waterslide.
- Do not alter the lifejackets.
- Do not put heavy objects, sit, stand or kneel on the lifejackets.
- Return lifejackets to the first aid office.
- Only lifejackets provided by this facility are allowed. Personal lifejackets are not allowed.

Rules set forth by the Clarendon Hills Park District Risk Management Agency (PDRMA).
