Clarendon Hills Park District “Bridge Phase” Plan

To All Clarendon Hills Park District Participants and their Families,

The Clarendon Hills Park District is continuing to take an abundance of caution to protect our community, participants, and staff during the Coronavirus (COVID-19).

The Governor's “Bridge Phase” Plan has affected our operations and programs and is subject to change at any time. We continue to follow the recommendations from the Governor's office along with the [Centers for Disease Control \(CDC\)](#) and the [Illinois Department of Public Health \(IDPH\)](#) as it pertains to public parks and recreation activities and facilities. Updates and information will be shared on our website page and [our Facebook](#) page as it becomes available.

During the “Bridge Phase” Plan, individuals may engage in outdoor activities such as walking, hiking, running, exercising, biking and use any open outdoor recreation areas if they comply with the social distancing guidelines requirements. [Patrons should participate in current practices regarding the pandemic](#) to help minimize everyone's exposure.

Facilities:

The Recreation Community Center will re-open in mid-June.

Lions Park Pool will re-open in mid-June.

Prospect Park Picnic Pavilion and Permanent Washrooms are open for use.

Programs:

See our [Recreational Summer Brochure](#) on our website for many fun recreational programs.

Parks:

Sports fields, tennis and basketball courts, playgrounds, fishing ponds are all open for use.

Staff and Commissioners will re-evaluate these decisions based on the most current information from the Governor's Office and guidance from public health organizations and the Park Districts insurance agency, PDRMA.

Thank you for your patience and understanding. If you have questions, please contact the Administrative Office at 630-323-2626
