CLARENDON HILLS PARK DISTRICT

315 CHICAGO AVENUE CLARENDON HILLS, ILLINOIS 60514 (630) 323-2626 FAX: (630) 323-5362

August 12, 2022

Board of Park Commissioners Clarendon Hills Park District 315 Chicago Avenue Clarendon Hills, Illinois 60514

Honorable Commissioners:

The Annual Comprehensive Financial Report (ACFR) of the Clarendon Hills Park District for the fiscal year ending April 30, 2022 is submitted herewith. The report was prepared by the District Chief Executive Officer and Treasurer, working with the District's auditor. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Clarendon Hills Park District. We believe the data presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the Clarendon Hills Park District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included.

The audit is presented in three sections; introductory, financial and statistical. The introductory section includes this transmittal letter and the District's organizational chart. The financial section includes the management's discussion and analysis (MD&A), the general-purpose financial statements and schedules, including the auditor's report on the financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The letter of transmittal is designed to complement the MD&A which begins on page 3.

ECONOMIC CONDITION AND OUTLOOK

The Clarendon Hills Park District (the "District") is an independent unit of government that was organized in 1946. The District is governed by a five-member Board of Commissioners consisting of a President, Vice President and three commissioners, all elected at large to four-year terms. The District has been a member of the Illinois Association of Park Districts since 1960, as well as a member of the South East Association for Special Parks and Recreation.

The District is located along the Northwest Tollway (I-294) near O'Hare International Airport, in Du Page County. A Metra commuter train station located in the Village serves District residents and the western suburbs. Proximity to O'Hare International Airport, the Metra northwest rail line, and other major interstate highways (Route 83) have contributed to the growth in housing, commercial, and retail sectors within the area.

The daily operations of the District are administered by the Executive Director along with other full-time professional recreation and park employees. There are 8 full-time employees and approximately 130 part-time employees that work throughout the year, mostly during the summer. The District administers the Community Center, the gymnasium at Clarendon Hills Middle School (when not in use by the school), Lions Park Pool and seven other park areas totaling nearly 45 acres of park land, providing over 700 recreational programs a year to residents. The District is a service oriented-organization dedicated to enhancing the quality of life for the citizens of Clarendon Hills.

The 2020 Census population of 8,702 for the Village represents a 3.3% increase from the 2010 population of 8,427. Potential for future population growth is modest due to the generally developed character of the land within the District. In the last year, the District's equalized assessed valuation has increased by 2.2%.

Personal income per capita is \$67,540. This per capita income along with population growth contributes to the community's demand for increased facilities and programs. As we move into the 21st century, the community the District serves is well-positioned for a prosperous future.

MAJOR INITIATIVES/HAPPENINGS FOR THE YEAR

The 2022 Budget for Operations and Debt Service remained static for the year. Tax revenues increased 4.1%, relative to the previous year and fee and charge revenues increased by 441% due to the COVID-19 pandemic reopening in 2022.

Total expenditures decreased by 1.7% or \$63,001 from \$3,786,417 in fiscal year 2021 to \$3,723,416 in fiscal year 2022. This decrease is mostly attributed to less capital outlay in fiscal year 2022 for the renovation of the community center.

FUTURE INITIATIVES/FUTURE DIRECTION

The mission of the District is to provide well-maintained, safe, active and passive recreational spaces through sound environmental management; to provide programs in consideration of the needs of a diverse community which support the health and wellness of individuals as well as the community, increase awareness and respect for the environment and allow for athletic participation at all levels; and to work within the communities financial limitations while fostering cooperative relationships whenever possible.

The District maintains a capital projects plan. In fiscal year 2016, this process was updated by the Director and the Board of Commissioners. Projects will be completed as funding becomes available. The priority of capital projects is determined by the Park Board of Commissioners.

FINANCIAL INFORMATION

Accounting System and Budgetary Control

The District's records for general governmental operations are maintained on a modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and liabilities incurred.

In developing and maintaining the District's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control has been established at the individual fund level. Financial reports are produced showing budget and actual expenditures by line item and are distributed monthly to District departmental and divisional management and to others upon request.

Individual line items are reviewed and analyzed for budgetary compliance. Personnel expenditures are monitored and controlled at a position level and capital expenditures (items over \$1,000 and having a useful life of more than 1 year) are monitored and controlled item by item. Revenue budgets are reviewed monthly.

Additionally, all expenditures are reviewed by the Board of Commissioners prior to the release of payments.

<u>The Reporting Entity and its Services</u> - This report includes all of the funds, account groups and activities controlled by the District.

The District participates in the Illinois Municipal Retirement Fund, PDRMA and SEASPAR. Those organizations are separate governmental units because (1) they are organized entities, (2) have governmental character, and (3) are substantially autonomous. Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

The Clarendon Hills Park District provides recreation programs, park and facility management, capital development and general administration.

A full schedule of recreation programs is provided by the District, including classes and activities in aerobics, swimming, music, dance, visual arts, and various sports. Recreational activities are available for all ages. The District is a member of the award-winning SEASPAR Special Recreation Association, which provides recreation services to physically or mentally challenged persons. Approximately 200 programs are provided yearly.

<u>General Government Functions</u> - The reporting period covered by these financial statements encompasses twelve months. Funds are provided for services by taxes, user fees, issuance of bonds, interest income, grants, donations and miscellaneous sources.

Property taxes are a major source of income for general operations. Property taxes make up 78.0% of the District's revenues.

Assessed valuation of \$625,379,963 represents a 2.2% increase from last fiscal year.

Last year collections were 99.93% of the tax levy. Allocation of the property tax levy for 2021 and the preceding tax year are as follows (amounts for each \$100 of assessed value).

| | 2021 | 2020 |
|-------------------------|--------|--------|
| Purpose | | |
| General Fund | 0.1188 | 0.1189 |
| Special Revenue Funds | 0.2017 | 0.2018 |
| General Obligation Debt | 0.0277 | 0.0283 |
| Total Tax Rate | 0.3482 | 0.3490 |

The maximum tax rate for the General Fund is \$.3500. The maximum tax rate for the Recreation Fund is \$.3700.

Total fund balance decreased by \$985,792 from last year's fund balance of \$2,130,013 for a total of \$1,144,221 as of April 30, 2022. This decrease was mainly due the completion of the community center and capital expenditures of \$1,288,096.

Total long-term debt decreased by \$320,000 to \$3,580,000 as of April 30, 2022.

<u>Debt Administration</u> - All general obligation bond and installment contract payments are made from the Debt Service Fund. There are two outstanding bond issues at April 30, 2022 totaling \$4,109,438 in principal and interest.

<u>Capital Assets Attached</u> - As of April 30, 2022 the general capital assets of the Clarendon Hills Park District amounted to \$10,187,236 presenting a 6% increase over the prior year. The major categories of increase resulted from buildings for the community center renovation.

<u>Cash Management</u> - Cash, temporarily idle during the year, is invested in a local bank via a cash management account.

It is the District's policy that all demand deposits and time deposits are secured by pledged collateral with a market value equal to no less than 100% of the deposits less an amount incurred by the FDIC. Evidence of the pledged collateral is maintained by the Finance Department and at a third-party financial institution. Collateral is reviewed periodically to assure the market value of the securities pledged equals or exceeds the related bank balances. Monthly reports are reviewed by the District's Financial Consultant and Board of Commissioners per the District Investment Policy.

All collateral is subject to inspection and audit by the District's Financial Consultant or the independent auditors.

<u>Independent Audit</u> - Chapter 50, Section 310/2 of the Illinois Revised Statues requires that park districts secure a licensed public accountant to perform an annual audit of accounts. The firm of Illinois NFP Audit and Tax, LLP has performed the audit for the year ended April 30, 2022. Their unmodified opinion on the general-purpose financial statements is presented in this report.

OTHER INFORMATION

<u>Acknowledgments</u> - The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. Appreciation is expressed to the District's employees throughout the organization, especially those employees who were instrumental in the successful completion of this report.

We would like to thank the members of the Board of Commissioners for their interest and support in planning and conducting the financial operation of the District in a responsible and progressive manner.

Respectfully submitted,

Independent Auditors' Report

To the Board of Commissioners Clarendon Hills Park District Clarendon Hills, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Clarendon Hills Park District as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Clarendon Hills Park District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Clarendon Hills Park District, as of April 30, 2022, and the respective changes in financial position and cash flows, where applicable, thereof for the year ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Clarendon Hills Park District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Clarendon Hills Park District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Clarendon Hills Park District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Clarendon Hills Park District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, major fund budgetary schedules, and certain pension and post-employment benefit disclosures be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Clarendon Hills Park District basic financial statements. The combining and individual fund financial statements and schedules for non-major funds, and other non-required supplemental schedules as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements schedules for non-major funds and other non-required supplemental schedules as listed in the table of contents are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Management is responsible for the other information included within the audit report. The other information comprises of the introductory and statistical sections, as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Chicago, Illinois August 12, 2022

CLARENDON HILLS PARK DISTRICT Management Discussion & Analysis

Introduction

The Clarendon Hills Park District's management and discussion analysis (MD&A) provides an overview of the District's financial activities for the fiscal year ended April 30, 2022. The MD&A should be read as a narrative introduction to the financial statements that follow. The purpose of this report is to assist the reader in focusing on significant accounting issues, provide an overview of the District's financial activity, identify changes in the District's financial position, identify any material deviations from the approved budget and identify individual fund issues or concerns.

The MD&A is an element of the new reporting model accepted by the Governmental Accounting Standards Board (GASB) in its Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative data between the current and prior years is required to be presented in the MD&A.

Financial Highlights

- The District's total assets and deferred outflows exceeded its total liabilities and deferred inflows at the end of the most recent fiscal year by \$7,485,581. Total assets and deferred outflows decreased 2.3% from \$14,443,291 in FY21 to \$14,112,464 in FY22. Total liabilities and deferred inflows decreased 5.4% from to \$7,007,853 in FY21 \$6,626,883 in FY22. The District's total net position increased \$50,143, or 0.7% over the previous year.
- Property and Replacement Taxes levied and collected were \$2,146,403 compared to the prior year of \$2,056,568 for an increase of \$89,835 or 4.4%.
- At April 30, 2022, the District's governmental funds reported combined ending fund balances of \$1,144,221, a decrease of \$985,792 from the prior year. This decrease is mostly attributed to the community center renovation and increases in operating expenditures due to the COVID-19 pandemic re-opening.
- The District's outstanding long-term debt decreased by \$320,000 to \$3,580,000 as of April 30, 2022.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the District's basic financial statements. The Basic Financial Statements include three components: government-wide financial statements, fund financial statements and notes to the financials. The District also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances. The two new government-wide financial statements, Statement of Net Position and Statement of Activities represent an overview of the District as a whole, separating its operations between governmental and business-type activities. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The *Statement of Net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

The *Statement of Activities* presents changes in the District's net position during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenues, such as grants, from business type activities that are intended to recover all or significant portion of their costs through user fees and charges. Governmental activities include general government and recreation. Business-type activities reflect the District's private sector operations, where the fees for services typically cover all or most of the cost of operation including depreciation. Fiduciary activities such as employee pension plans are not included in the government-wide statements since these assets are not available to fund District programs.

The government-wide financial statements are presented on pages 12 and 13 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

A District has two kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund and major special revenue funds. Budgetary comparison schedules for other special revenue funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the District's adopted annual appropriated budget.

The basic governmental fund financial statements are presented on pages 14 through 17 of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the District charges customers a fee. There are two types of proprietary funds. These are enterprise funds and internal service funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the governmental-wide statements. Services are provided to customers external to the District organization such as the golf course. Internal service funds provide services to customers within the District's organization. The District does **not** use proprietary or internal service funds at this time.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 18 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees. Other supplementary information includes detail by fund for receivables, payables, transfers and payments within the reporting entity. Supplementary information can be found on page 40 of this report.

Major funds are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 51.

Government-wide Financial Analysis

This District implemented the new financial reporting model used in this report beginning with the fiscal year ended April 30, 2005. Over time as year-to-year financial information accumulated on a consistent basis, changes in net position may be observed and used to discuss changing financial position of the District as a whole.

Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Clarendon Hills Park District, assets and deferred outflows exceeded liabilities and deferred inflows by \$7,485,581 for the year ended April 30, 2022. A portion of the District's net position reflects its investment in capital assets of \$6,429,123. The District uses these capital assets to provide services and consequently these assets are not available to liquidate liabilities or for other spending.

The unrestricted net position of \$961,859 at April 30, 2022 is available to fund future District obligations.

Revenues by Source - Governmental Activities

Revenues and Expenses - All Governmental Activities

Governmental Activities

As stated previously, Governmental Activities increased the District's net position by \$50,143. Key elements of the entity-wide performance are as follows:

- The total revenues increased by \$334,710 or 16.3% from \$2,402,914 in fiscal year 2021 to \$2,737,624 in fiscal year 2022. This increase can be mostly attributed to an increase in charges for services due to the re-opening of programs from the pandemic.
- Property tax revenue increased 4.4% from the prior fiscal year.
- Recreation program fees increased by \$467,774 or 441% from the prior fiscal year. The reopening from the COVID-19 virus increased attendance of all programs as most classes were able to resume in person.
- Total expenses increased by 37.7% or \$701,266 from \$1,986,215 in fiscal year 2021 to \$2,687,481 in fiscal year 2022. This increase is mostly attributed to higher personnel costs due to programs re-opening from the pandemic.

Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful is assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$1,144,221. Over 90% of fund balance is unrestricted, indicating the availability of funds for the District's continued operations.

The total ending fund balance of governmental funds shows a decrease of \$985,792 from the prior fiscal year. This decrease is primarily the result of the financial information described in the analysis of the District's governmental activities.

Major Governmental Funds

The general, recreation, debt service and capital projects funds are the primary funds of the District.

The general fund operating surplus was \$25,234. This increase was mainly due to increased property tax revenues and flat operating costs from prior year.

The recreation fund operating deficit was \$(277,029). This decrease was mainly due to internal transfer to the capital fund for the community center renovation.

The debt service fund operating surplus was \$2,028. The recreation fund transferred \$266,600 to the debt service fund.

General Fund Budgetary Highlights

During the 2022 budget year, the district did not revise the annual operating budget.

The general fund is reported as a major fund, and accounts for the routine park operations of the District.

Revenues in the general fund were \$747,234 for a favorable variance of \$14,134 or 1.9% more than budgeted. The favorable variance is attributed to an increase in replacement taxes and grants and contributions. Expenditures were \$722,000 for a favorable variance of \$11,100 or 1.5% less than budgeted. The favorable variance is attributed to strict budgetary monitoring. The overall net budget variance in the General Fund was a favorable \$25,234.

The General Fund's surplus of revenues and other financing sources over expenditures and other financing uses was \$25,234. The fund balance increased to \$468,566 at the end of the fiscal year from \$443,332 the prior year.

Capital Asset

The District's investment in capital assets, net of accumulated depreciation for governmental-type activities as of April 30, 2022 was \$10,187,236.

Major capital assets events during the fiscal year included the additions, repairs and renovations of the following: community center renovation and park and playground improvements. Further discussion of the changes in capital assets is included in Note 4 in the Notes to the Financial Statements.

Debt Administration

As of April 30, 2022, the District has future long-term debt principal and interest payments outstanding of \$4,109,438. The fund balance of the Debt Service Fund at the end of the 2022 fiscal year amounted to \$34,750. Refer to Note 5 in the Notes and pages 56 - 57 of the Financial Statements.

Initiatives

The District prides itself on continually providing an aesthetic and functional environment for the community. In fiscal year 2016, the District completed a new master plan for park and facility improvements in the future and continues to apply for park and recreational grants.

Factors Bearing on the District's Future

Beginning around March 2020, the COVID-19 virus has been declared a global pandemic as it continued to spread rapidly. The economic impact of the State of Illinois' Executive Order imposing "stay at home" restrictions will be widespread and last for several years. The District is carefully monitoring the situation and evaluating its options for the current year and following year's budgetary position as the situation continues to improve.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance related laws and regulations and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, please contact Don Scheltens, Executive Director, Clarendon Hills Park District, 315 Chicago Ave., IL 60514.

Change in Net Position of Governmental Activities

1. Summary of Significant Accounting Policies

The District is incorporated in Clarendon Hills, Illinois. The District provides a variety of recreational facilities, recreational programs, park management, capital development, and general administration to its residents. The District operates under the commissioner-director form of government.

The financial statements of Clarendon Hills Park District (the "District"), have been prepared in conformity with Generally Accepted Accounting Principles as applied to local governments. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

Financial Reporting Entity

The accompanying financial statements present the District's primary government and any component units over which the District exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the District (as distinct from legal relationships). Management has considered all potential component units and has determined that there are no entities outside of the primary government that should be blended into or discretely presented with the District's financial statements.

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the District as a whole (except for fiduciary activities) and distinguish between the governmental and business-type activities of the District. Governmental activities, which are normally supported by taxes and governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's recreation function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

1. Summary of Significant Accounting Policies (Continued)

Fund Financial Statements

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds include non-major Special Revenue funds and non-major Capital Projects funds. The combined amounts for these funds are reflected in a single column titled "Other Governmental Funds" in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. Detailed statements for non-major funds are presented with Combining and Individual Fund Statements and Schedules in the supplemental schedules of the financial statements.

Funds are organized as major funds or non-major funds within the governmental statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures and expenses of the individual governmental fund or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type and;

Total assets and deferred outflows, liabilities and deferred inflows, revenues or expenditures and expenses of the individual governmental or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements when applicable. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are those which governmental functions of the District finance. The acquisition, use, and balances of the District's expendable resources and the related liabilities are accounted for through governmental funds. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government does *not* consider revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences, claims, and judgments are reported only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

1. Summary of Significant Accounting Policies (Continued)

Measurement Focus and Basis of Accounting (Continued)

Property taxes, sales taxes, franchise taxes, licenses, charges for service, amounts due from other governments, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period if applicable. Charges for sales and services and miscellaneous revenues are generally recorded as revenue when received in cash because they are generally not measurable until actually received.

Basis of Presentation

The accounts of the District are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts. The various funds are summarized by type within the financial statements.

The District reports the following major governmental funds:

The <u>General Fund</u> is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Expenditures from this fund provide basic District services, such as such as finance and data processing, personnel, and general administration of the District. Revenue sources include taxes, which include property taxes, replacement taxes, interest income and other income.

The <u>Recreation Fund</u>, a special revenue fund, which accounts for recreation operations. Financing is provided by a specific annual property tax levy to the extent user charges are not sufficient to provide such financing.

The <u>Debt Service Fund</u>, a special revenue fund, which accounts for activity related to the District's long-term debt. Financing is provided by a specific annual property tax levy.

The <u>Capital Projects Fund</u>, which accounts for the District's financial resources that are restricted, committed, or assigned to expenditure for capital outlays such as building improvements and land acquisitions.

The District reports the following non-major governmental funds:

<u>Non-major Special Revenue Funds</u>: These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purpose other than debt service or capital projects. The District reports the <u>Special Recreation Fund</u>, <u>Liability Insurance Fund</u> and <u>Audit Fund</u> as non-major special revenue funds.

1. Summary of Significant Accounting Policies (Continued)

Basis of Presentation (Continued)

Fiduciary fund level financial statements are custodial in nature and are merely clearing accounts for assets held by the District as an agent for individuals, private organization, or other governments. Fiduciary funds are excluded from government-wide financial statements. The District reports no fiduciary funds.

Proprietary fund level financial statements are used to account for activities, which are similar to those found in the private-sector. The measurement focus is upon determination of net income, financial position, and cash flows. The District reports no proprietary funds.

When applicable, on the proprietary fund financial statements, operating revenues are those that flow directly from the operations of the activity, i.e., charges to customers or users who purchase or use the goods or services of that activity. Operating expenses are those that are incurred to provide those goods or services. Non-operating revenues and expenses are items such as investment income and interest expense that are not a result of the direct operations of the activity. When applicable, private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

Pooled Cash

Cash resources of the individual governmental fund types are combined to form a pool of cash and, when applicable, investments. At April 30, 2022, the District's cash was deposited in demand accounts and money market savings accounts.

Interfund Activity

During the course of normal operations, the District has transactions between funds, including expenditures and transfers of resources to provide services and construct assets. Legally authorized transfers are treated as transfers and are included in the results of operations of Governmental Funds and, when applicable, Proprietary Funds. Transactions between funds that are representative of cash overdrafts from pooled cash and investing are reported as interfund receivables or payables. Short-term amounts owed between funds are classified as "Due to/from other funds".

1. Summary of Significant Accounting Policies (Continued)

Receivables

Receivables consist of all revenues earned at year-end that are not yet received as of April 30, 2022. Major receivable balances for governmental activities include property taxes. The District carries its receivables at cost less an allowance for doubtful accounts. On a periodic basis, the District evaluates its receivables and establishes the amount of its allowance for doubtful accounts based on a history of past write-offs and collections. The allowance for doubtful accounts amounts to \$0 for property taxes receivable

Prepaid Items and Prepaid Expenditures

Payments made to vendors for services that will benefit periods beyond April 30, 2022 are recorded as prepaid items/expenditures using the consumption method of recognition.

<u>Inventory</u>

Inventory is valued at cost which approximates the lower of cost or net realizable value using the first-in/first-out (FIFO) method. The District reports no inventory as of April 30, 2022.

Deferred Revenue/Unearned Revenue

When applicable, the District reports unearned revenues on its Statement of Net Position and deferred revenues on its Governmental Funds Balance Sheet. For governmental fund financial statements, deferred revenues occur when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the Governmental Funds Balance Sheet and revenue is recognized accordingly.

Compensated Absences

Accumulated vacation, that is expected to be liquidated with expendable available financial resources, is reported as an expenditure and a fund liability of the governmental fund that will pay it. Accumulated vacation of proprietary funds, when applicable, is recorded as an expense and liability of those funds as the benefits accrue to employees. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements. The General Fund and Recreation Fund are used to liquidate the compensated absences liability.

Full-time District employees are entitled to paid vacation time in varying amounts based on years of service. Unused vacation time is payable upon resignation or retirement. The District's compensated absences liability at April 30, 2022 comprises of accumulated vacation amounting to \$29,607.

1. Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets, which include land, buildings and improvements, equipment, and when applicable, infrastructure assets (e.g., roads and bridges), are reported in the applicable government or business-type activities columns in the government-wide statements. Capital assets are defined as assets with a cost of \$1,000 or more. Capital assets are recorded at historical cost if purchased or constructed, or at estimated historical cost if actual historical cost is not available. Donated capital assets, donated works of art and similar items, and capital assets received in a service arrangement are reported at acquisition value rather than fair value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation on all assets is computed using the straight-line method over the following estimated lives:

| Buildings | 20 - 35 Years |
|-------------------------|---------------|
| Improvements | 10 - 20 Years |
| Machinery and Equipment | 5 - 15 Years |
| Furniture and Fixtures | 10 - 20 Years |
| Swimming Pool | 7 - 30 Years |

GASB Statement 34 requires the reporting and depreciation of the new infrastructure expenditures effective with the beginning of the implementation year.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources, or expenses/expenditures, until then. The District has deferred changes in proportion dealing with pensions and contributions made after the measurement date, and where applicable, deferred charges on refunding debt. These represent a consumption of net position that applies to future periods and is not recognized as an outflow of resources until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources, or revenues, until that time. A deferred inflow of resources dealing with pension is reported for the differences between expected and actual experience, the net difference between projected and actual earnings on pension investments, and changes of assumptions.

1. Summary of Significant Accounting Policies (Continued)

Long-Term Liabilities

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations, when applicable, are accounted for in those funds.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources.

Non-spendable fund balance - The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form - prepaid items or inventories; or (b) legally or contractually required to be maintained intact. The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - Amounts can only be used for specific purposes pursuant to constraints imposed by ordinances of the District Board of Commissioners - the government's highest level of decision-making authority. These committed amounts cannot be used for any other purpose unless the District Board of Commissioners removes the specified use by ordinance. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - This classification reflects assets constrained by the expressed written intent of the District Board of Commissioners for ambulance services, capital equipment and/or capital projects.

Unassigned fund balance - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, then unrestricted resources - committed, assigned, and unassigned - in order as needed. The District does not have a stabilization policy established.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. If different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and, lastly unassigned funds.

1. Summary of Significant Accounting Policies (Continued)

Net Position Classifications

In the government-wide financial statements, equity is shown as net position and classified into three components:

Net investment in capital assets - These amounts consist of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Net investment in capital assets excludes unspent bond or other debt proceeds.

Restricted net position - These amounts consist of net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Unrestricted net position - These amounts consist of all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

<u>Budgets</u>

The Board of Commissioners follows these procedures in establishing the budget:

- 1. The Executive Director and budget committee prepare a proposed operating budget which is submitted to the Board of Commissioners for their approval. The budget document is made available for public inspection for at least 30 days prior to Board action.
- 2. The Board of Commissioners is required to hold at least one public hearing prior to passage of the annual Budget and Appropriation Ordinance. The budget is an estimate of actual expenditures and the appropriation represents the legal spending limit.
- 3. The Budget and Appropriation Ordinance must be enacted into law prior to the end of the first quarter of the fiscal year (July 31).
- 4. The Board of Commissioners has the power to: Amend the Budget and Appropriation Ordinance in the same manner as its enactment, transfer between line items of any fund an amount not exceeding in the aggregate the total amount appropriated for that fund, and transfer any appropriation item it anticipates being unexpended to any other appropriation item.
- 5. Expenditures legally may not exceed the total appropriations at the fund level. All unspent budgetary amounts lapse at year-end. The budget information in the financial statements includes adjustments made during the year.

The budget is prepared for all funds on the same basis as the basic financial statements and is consistent with GAAP. The budget is derived from the annual Budget and Appropriation Ordinance of the District. All budgetary funds are controlled by an integrated budgetary accounting system in accordance, with various legal requirements, which govern the District.

1. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property Taxes

Property taxes become an enforceable lien on property as of January 1. Taxes are levied each year and are payable in two installments, due in June and September of the following year. DuPage County bills and collects all property taxes and remits them to the District. The District recognizes property taxes in the year in which they attach as an enforceable lien and are available.

2. Deposits

Deposits

At April 30, 2022, the carrying amount of the District's demand deposits in financial institutions is \$1,456,482 and the bank balance is \$1,506,776.

Custodial Credit Risk - Deposits

In case of cash deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. At April 30, 2022, the District's bank deposits are insured or covered by collateral.

3. Investments

Policies for Investments

It is the policy of the District to invest public funds in a manner to conform to all state and local statutes governing the investment of public funds; ensure prudent money management; provide for daily cash flow requirements; and meet the objectives, in priority order, of safety, liquidity, return on investment and public trust. The District's general credit risk policy is to apply the prudent person rule: Investments shall be made with the exercise of judgment and care, under circumstances then prevailing, which individuals of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived.

3. Investments (Continued)

Policies for Investments (Continued)

The District's investment policy permits the District to invest in: bonds, notes, certificates of indebtedness, treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest, bonds, notes debentures or similar obligations of the agencies of the United States of America; interest-bearing savings accounts, certificates of deposit, time deposits or other investment constituting direct obligations of a bank as defined by the Illinois Banking Act; short-term obligations (maturing within 180 days of dates of purchase) of corporations with assets exceeding \$500 million (such obligations must be rated at the time of purchase as AAA by at least two standard rating services); money market mutual funds registered under the Investment Company Act of 1940 which invest only in bonds, notes, certificates of indebtedness, treasury bills and other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest and agrees to repurchase such obligations; state and local government obligations; Illinois Park District Liquid Asset Fund or a fund managed, operated and administered by a bank and other securities as allowed by the Illinois Public Funds Investment Act. Investments in Illinois Park District Liquid Asset Fund (IPDLAF) are valued at IPDLAF's share price, the price for which the investment could be sold.

Fair Value Measurements

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Interest Rate Risk

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity. The District will not invest in securities maturing more than three years from the date of purchase unless matched to a specific cash flow. Reserve funds may be invested in securities exceeding three years if the maturity of such investments are made to coincide as nearly as practicable with the expected use of the funds. Any investment purchased with a maturity longer than four years must be supported with written documentation explaining the reason for the purchase and must be specifically approved by the Park District Board.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government.

3. Investments (Continued)

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. In accordance with the District's investment policy, the District limits its exposure to custodial credit risk by utilizing an independent third-party institution to act as a custodian for its securities and collateral.

Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of the Fund's investment in a single issuer. The District's investment policy requires diversification of investments to the best of its ability based on the type of funds invested and the cash flow needs of those funds. Diversification can be by type of investment, number of institutions invested in, and length of maturity.

The District reports no investments using fair value measurements as of April 30, 2022.

4. Capital Assets

Capital asset activity for the year ended April 30, 2022, consisted of the following:

| | Balance | | | | Balance | |
|------------------------------------|----------------|------------|-------------|-------------------|----------------|--|
| | April 30, 2021 | Additions | Retirements | Reclassifications | April 30, 2022 | |
| Governmental Activities | | | | | | |
| Assets Not Subject to Depreciation | | | | | | |
| Land | \$ 3,362,602 | \$ 0 | \$ 0 | \$ 0 | \$ 3,362,602 | |
| Construction in Progress | 1,985,622 | 0 | 0 | (1,985,622) | 0 | |
| | 5,348,224 | 0 | 0 | (1,985,622) | 3,362,602 | |
| Assets Subject to Depreciation | | | | | | |
| Buildings | 2,921,972 | 951,770 | 0 | 1,979,394 | 5,853,136 | |
| Improvements | 3,885,324 | 211,627 | 0 | 6,228 | 4,103,179 | |
| Machinery and Equipment | 735,778 | 20,321 | 0 | 0 | 756,099 | |
| Swimming Pool | 3,493,866 | 43,763 | 0 | 0 | 3,537,629 | |
| | 11,036,940 | 1,227,481 | 0 | 1,985,622 | 14,250,043 | |
| Subtotal Cost Basis | 16,385,164 | 1,227,481 | 0 | 0 | 17,612,645 | |
| Less - Accumulated Depreciation | | | | | | |
| Buildings | (1,155,092) | (311,186) | 0 | 0 | (1,466,278) | |
| Improvements | (2,710,209) | (159,221) | 0 | 0 | (2,869,430) | |
| Machinery and Equipment | (555,424) | (31,611) | 0 | 0 | (587,035) | |
| Swimming Pool | (2,364,810) | (137,856) | 0 | 0 | (2,502,666) | |
| Subtotal Accumulated Depreciation | (6,785,535) | (639,874) | 0 | 0 | (7,425,409) | |
| Net Capital Assets | \$ 9,599,629 | \$ 587,607 | <u>\$</u> 0 | <u>\$</u> 0 | \$ 10,187,236 | |

Depreciation expense was charged to the functions/programs of the primary government as follows:

5. Long-term Liabilities

The District enters into debt transactions to finance capital outlay. The following debt commitments exist as of April 30, 2022:

| | Balance April 30, 2021 | Additions | Retirements | Balance April 30, 2022 | Amount Due Within One Year | Debt Retired By Fund |
|------------------------------|------------------------------|-------------|--------------|------------------------------|----------------------------------|----------------------------|
| General Obligation Bonds | | | | _ | | |
| Series 2018 - \$2,025,000 | \$ 1,485,000 | \$ 0 | \$ (190,000) | \$ 1,295,000 | \$ 195,000 | Debt Service |
| Series 2020 - \$2,415,000 | 2,415,000 | 0 | (130,000) | 2,285,000 | 145,000 | Debt Service |
| | 3,900,000 | 0 | (320,000) | 3,580,000 | \$ 340,000 | |
| Bond Discount Series 2020 | \$ (19,348) | \$ 0 | \$ 1,290 | \$ (18,058) | | |
| Bond Premium | | | | | | |
| Series 2018 | \$ 102,343 | \$ 0 | \$ (14,620) | \$ 87,723 | | |
| Series 2020 | 126,097 | 0 | (8,407) | 117,690 | | |
| | \$ 228,440 | <u>\$ 0</u> | \$ (23,027) | \$ 205,413 | | |

General Obligation Bond, Series 2018 - General Obligation Limited Tax Park Bond Series 2018; original issue of \$2,025,000; principal payable annually on December 15, 2018 through 2027; interest paid semiannually on June 15 and December 15 at rates ranging from 3.00% to 4.00%.

General Obligation Bond, Series 2020 - General Obligation Limited Tax Park Bond Series 2020; original issue of \$2,415,000; principal payable annually on December 15, 2021 through 2036; interest paid semiannually on June 15 and December 15 at rates ranging from 1.75% to 2.00%.

Prior Year Debt Defeasance - In prior years, the District has defeased notes issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the District's government-wide financial statements. As of April 30, 2022, the amount of defeased debt outstanding amounted to \$533,000. Deferred outflows related to the debt refunding is as follows:

| | Balance April 30, | | | | | | Balance April 30, |
|----------------------------|----------------------|-----------|---|-------------|-------|------|----------------------|
| | 2021 | Additions | | Retirements | | 2022 | |
| Deferred Refunding (Asset) | | | | | | | |
| Series 2018 | \$ (7,314) | \$ | 0 | \$ | 1,045 | \$ | (6,269) |
| Series 2020 | (3,185) | | 0 | | 212 | | (2,973) |
| | \$ (10,499) | \$ | 0 | \$ | 1,257 | \$ | (9,242) |

5. Long-term Liabilities (Continued)

The District's future minimum debt payments are as follows:

General Obligation Bonds

| Fiscal Year(s) | Principal | | Interest | | Total |
|-----------------------|-----------|-----------|----------|---------|-----------------|
| April 30, 2023 | \$ | 340,000 | \$ | 95,825 | \$ 435,825 |
| April 30, 2024 | | 350,000 | | 85,125 | 435,125 |
| April 30, 2025 | | 360,000 | | 74,025 | 434,025 |
| April 30, 2026 | | 370,000 | | 62,625 | 432,625 |
| April 30, 2027 | | 380,000 | | 50,825 | 430,825 |
| April 30, 2028 - 2032 | | 1,070,000 | | 125,013 | 1,195,013 |
| April 30, 2033 - 2036 | | 710,000 | | 36,000 | 746,000 |

^{* -} Represents an asset at April 30, 2022 as presented on the Statement of Net Position.

6. Compliance and Accountability

At April 30, 2022, none of the District's funds had a deficit fund balance. The District's funds had an excess of actual expenditures over budgeted amounts for the year ended April 30, 2022.

| Fund | Budget | Actual | Variance | | |
|--------------------|--------------|--------------|----------|----------|--|
| Recreation | \$ 1,299,170 | \$ 1,374,136 | \$ | (74,966) | |
| Debt Service | 437,600 | 437,702 | | (102) | |
| Special Recreation | 99,000 | 99,247 | | (247) | |

7. Interfund Transactions

In general, transfers are used to (1) move revenues from the fund that collects the money to the fund that expends the money, (2) move receipts restricted or earmarked for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in a fund to provide operating advances to other funds in accordance with budgetary authorizations.

7. Interfund Transactions (Continued)

At April 30, 2022, no interfund receivables and payables exist.

During the year ended April 30, 2022, the following interfund transfers occurred:

| Fund | ansfer from ther Funds | Transfer to Other Funds | | | |
|------------------|---------------------------|-------------------------|---------|--|--|
| Recreation | \$ 0 | \$ | 566,600 | | |
| Debt Service | 266,600 | | 0 | | |
| Capital Projects | 300,000 | | 0 | | |
| | \$ 566,600 | \$ | 566,600 | | |

8. Risk Management

Park District Risk Management Agency

The District is exposed to various risks related to torts; theft of, damage to and destruction of assets; errors and omissions; employee health; injuries to employees; and net income (losses). The District is a member of the Park District Risk Management Agency (PDRMA), a risk management pool of park and forest preserve districts and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. Settled claims have not exceeded coverage in the current or prior two fiscal years.

In the event losses exceeded the per occurrence self-insured and reinsurance limit, the District would be liable for the excess amount. PDRMA's Board of Directors evaluates the aggregate self-insured limit annually. As a member of PDRMA, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, to cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

8. Risk Management (Continued)

Park District Risk Management Agency (Continued)

Since 96.36% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the member balances are adjusted annually as more recent loss information becomes available. Complete financial statements for PDRMA can be obtained from PDRMA's administration offices at 2033 Burlington Avenue, Lisle, Illinois 60532.

The District is a member of the Park District Risk Management Agency (PDRMA) Health Program, a health insurance pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$250,000. Until January 1, 2001, the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN). Members can choose to provide any combination of coverages available to their employees and pay premiums accordingly. As a member of the PDRMA Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and the PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

9. Joint Agreements

The District, seven other contiguous park districts and three municipalities have entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each agency shares equally in the South East Association for Special Parks and Recreation (SEASPAR) and generally provides funding. Each member agency participating in the SEASPAR selects one individual, usually from its own Board or professional staff, to sit on the Board of Directors of the SEASPAR. The Board of Directors adopts its own budget based on funds being contributed by its members and programs to be conducted and generally adopts the operating policies, invests funds and otherwise directs the operations of the SEASPAR independent of its member agencies. Each member agency shares equally in the SEASPAR and generally provides funding based on up to four cents per \$100 of its equalized assessed valuation. The District contributed \$86,021 to the SEASPAR during the current fiscal year. Separate financial statements for SEASPAR are available from the SEASPAR's management.

10. Commitments and Contingencies

The District entered into a contract with the Clarendon Hills Lions Club Community Service Corporation (Lions Club) in March 1991. According to the terms of the contract, the swimming pool and adjacent property owned by the Lions Club were transferred to the District in consideration for the District's commitment to make improvements to the property. The property will be owned by the District so long as the District keeps the pool in operation and open for use and, thereafter, will be owned by the Lions Club.

11. Evaluation of Subsequent Events

The District has evaluated subsequent events through August 12, 2022, the date which the financial statements were available to be issued.

12. Governmental Accounting Standards Board (GASB) Statements

<u>Recently Implemented GASB Statements</u> - None

Upcoming GASB Statements

GASB Statement No. 87, Leases, was issued June 2017 and will be effective for the District with the fiscal year ending April 30, 2023.

GASB Statement No. 91, Conduit Debt Obligations, was issued May 2019 and will be effective for the District with the fiscal year ending April 30, 2023.

GASB Statement No. 92, Omnibus 2020, was issued January 2020 and will be effective for the District with the fiscal year ending April 30, 2023.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. This statement was issued June 2020 and will be effective for the District with the fiscal year ending April 30, 2023.

The District management has not yet determined the effect these Statements will have on the District's financial statements.

13. Other Post-Employment Benefits

The District has evaluated its potential other postemployment benefits liability. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, no former employees have chosen to stay in the District's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Additionally, the District had no former employees for which the District was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any postemployment benefit liability as of April 30, 2022.

14. Retirement Fund Commitments – Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org. The plan's latest actuarial valuation is December 31, 2021.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Funding Policy. As set by statute, the District Regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for fiscal year 2022 was 9.70 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Commissioners, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost. The required contribution for the fiscal year 2022 was \$59,025.

| Alternative Investments | 7% | 3.2% - 8.5% |
| Cash Equivalents | 1% | 2.50% |
| | 100% | |

The single discount rate is calculated in accordance with GASB Statement No. 68. GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph. The single discount rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 1.84%; and the resulting single discount rate is 7.25%.

Sensitivity of Net Pension Liability/(Asset) to the Single Discount Rate Assumption

| | Current Single Discount | | | | | |

Notes to the Multiyear Schedule of Contributions:

The information presented was determined as part of the actuarial valuations as of January 1 of the prior calendar year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 22 years; the asset valuation method was five-year smoothed fair value; and the significant actuarial assumptions were an investment rate of 7.25% annually and projected salary increases assumption of 3.35% to 14.25% plus 2.50% for inflation compounded annually.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.
