

**FOR IMMEDIATE RELEASE**

## **Lions Park Pool Opening Delayed**

**Lions Park Pool will open on Saturday June 6<sup>th</sup> at 11:30am.**

**The pool will not open on May 23<sup>rd</sup> due to unexpected weather-related construction delays**

Clarendon Hills, IL — Record-breaking rainfall this spring has led to a delay in the opening of Lions Park Pool, as construction crews work to safely complete final improvements to the facility.

The 2026 season has marked the wettest March 1 through April 20 period on record in Chicago, with 10.63 inches of rain, more than double the historical average of 4.66 inches. These unprecedented conditions have significantly impacted construction timelines at Lions Park Pool.

As a result of these weather-related delays, the opening of Lions Park Pool will be slightly postponed. While the delay may be disappointing to the community, additional time is necessary to ensure that construction crews can safely complete the installation of two new waterslides and fully restore the facility.

The updated projected opening day for Lions Park Pool is **Saturday, June 6, 2026**. This adjusted timeline will allow contractors to complete final steps and ensure a safe, high-quality experience for all visitors.

The Park District appreciates the community's patience and understanding as improvements are nearing completion. The enhancements to Lions Park Pool are expected to provide an exciting and refreshed space for residents to enjoy throughout the summer season.
